Perfectub® by Braktub

The alcove tub, re-engineered.
perfectub.com | 516-217-4599

A bigger, safer bath. Same 60-inch alcove.

The Perfectub® by Brak Tub replaces the curved, sloping walls of a standard tub with thin side walls, a flat bottom and a patented undercut, so you get more room to soak and an easier, steadier step in and out.

30% more tub volume than a standard 60" alcove tub

60" fits a standard alcove: 30" or 32" wide models

15" max bathing depth with the linear overflow (32" model)

Step out with steady balance. The patented undercut "toe-kick" gives your foot an instep, so your feet are only about 3 inches apart as you step over the apron.

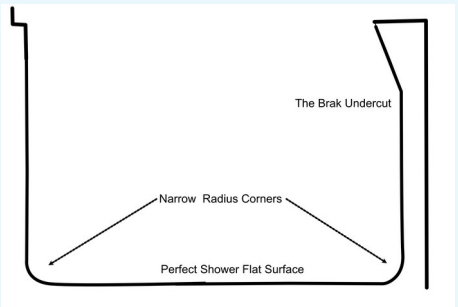

A built-in splash guard. The undercut keeps water in the tub, not on the floor, when bathing kids or shampooing the dog.

Shower-chair friendly. The flat bottom holds a standard shower chair flat and level, and gives you a wide, flat surface to shower on.

A deeper, warmer soak. The linear overflow lets you fill higher, and the acrylic holds the heat so your bath stays warm.

Made for aging in place, accessibility, families with kids and pets, and ice baths.

THE PATENTED BRAK UNDERCUT

Cross-section: the Brak undercut, narrow radius corners and a flat bottom.

Limited lifetime warranty • Showrooms in 12 states

FOR CONTRACTORS, DEALERS, HEALTHCARE & SPECIFIERS

Specify it. Stock it. Install it faster.

Contractors & remodelers

Standard 60" alcove fit. Ships with a full assembly kit, linear overflow collector welded in place. No wet mortar bed needed, so no 24-hour cure.*

Dealers, showrooms & lumber yards

A differentiated product your customers can see and step into. Earn commissions on retail sales and negotiate discounts for your clients.

Healthcare & senior living

Easier, steadier entry and exit. A standard shower chair sits flat and level for caregiver-assisted bathing. Our 32" model meets ADA height requirements.

Architects & designers

Cut sheets with exact dimensions. The Trimback wall and back flange let the tile wall flow directly into the tub.

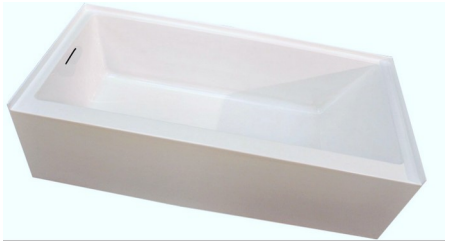

Step-out and shower-chair comparison: Perfectub (Brak Tub) vs. other tubs.

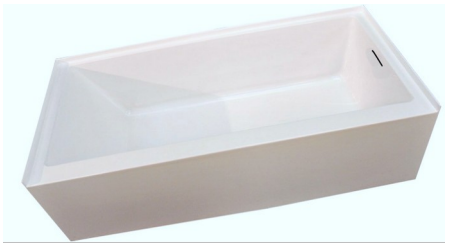

Weight & Dimensions
