FOR DEALERS, SHOWROOMS & LUMBER YARDS

Put the patented Perfectub® on your floor.

Why it sells

Easier in, easier out. Thin side walls, a flat bottom and the patented undercut let bathers step in and out upright and balanced.

Bigger tub, same alcove. 30% more tub volume in a standard 60" alcove, so customers upgrade without moving walls.

Two widths. BKTB-100 (60" x 30") and BKTB-300 (60" x 32"), left- or right-hand drain *[PENDING: handing per model]*.

Complete in the box. Waste and linear overflow included, which Brak Tub values at more than $200.

Low-risk purchase. Limited lifetime residential warranty and 30-day returns.

Who you'll sell it to

Remodeling contractors

Standard dimensions, full install kit, and a reinforced flat bottom that can skip the mud bed and its 24-hour cure.*

Aging-in-place buyers

Homeowners 45+ and adult children shopping for a parent who want an easier tub, not a walk-in tub.

Builders & multifamily

Durable acrylic with a steel-reinforced back ledge. Above-the-floor rough version *[NEED: model/availability]*.

Designers & architects

Trimback wall lets the tile flow into the tub for a clean, modern look; cut sheets available.

Partner program

Item	Detail

SHOWROOM NETWORK

Perfectubs are on display in 12 states

New York, Ohio, Pennsylvania, Texas, Kansas, Connecticut, Massachusetts, Maine, Michigan, New Hampshire, Rhode Island and Vermont.

Ask about adding your location to the Perfectub showroom locator at braktub.com. [NEED: confirm listing program]

* A wet mortar bed or foam bedding is not required, but is recommended on uneven or older floors; follow the Perfectub installation instructions. Specs: see the BKTB-100 and BKTB-300 spec sheets.
